

Transfer, Development and Optimization Process Services

- TowerJazz offers process development and manufacturing services for Semiconductor companies with process IP knowledge
- TowerJazz is the best solution for:
 - Manufacturing services to offload excess capacity and legacy products
 - Second source manufacturing
 - Process Transfers from R&D line to production
 - Joint development programs and customization
- Proven copy smart methodology based on highly experienced engineering team, vast manufacturing experience and state-of-the-art production lines for Core CMOS and specialized technologies. Vast experience of over 10 yrs in process transfers done with minimal customer resources and CAPEX all in record Time-to-Market.

TowerJazz Advantage

Culture and Trust

- TowerJazz is a security-conscious company
- Foster customer intimacy and mutual trust
- Long term relations; confidence in long-term wafer supply relationship

Engineering

- Dedicated customer support team
- 24/7 Customer portal for on-line help
- Specialized capabilities in design, device and process technologies
- Experience in technology transfers of customer products and platforms, 6" & 8" wafers

Technology

- Operating 3 manufacturing facilities:
 - Fab 1: 6", 1 μ m – 0.35 μ m
 - Fab 2: 8", 0.18 μ m – 0.13 μ m Aluminum and Copper technologies
 - Fab 3: 8" Fab, SiGe BCD & MEMS
- Core-CMOS, Mixed-signal, RF CMOS, CMOS Image Sensors(CIS), Non-volatile Memory (NVM) and power devices
- Flexible capacity

About TowerJazz

TowerJazz (NASDAQ: TSEM, TASE: TSEM), the global specialty foundry leader, manufactures integrated circuits, offering the widest range of customizable CMOS specialty wafer processes and providing world-class design enablement tools for the quickest path to design success. In addition to digital CMOS technology, TowerJazz offers specialty CMOS processes with geometries ranging from 1.0- to 0.13-micron, including: SiGe, BiCMOS, Mixed-Signal and RFCMOS, CMOS Image Sensor, Power Management (BCD), and Non-Volatile Memory (NVM) as well as MEMS capabilities. The Company also offers transfer optimization and development process services for IDMs and fabless companies to expand capacity or provide second sourcing. TowerJazz customers are focused on markets including RF, High-Performance Analog, Power, Imaging, Consumer, Automotive, Medical, Industrial and Aerospace & Defense. To provide world-class customer service, TowerJazz maintains two manufacturing facilities in Israel; a fab in the U.S; and has access to additional capacity in China through manufacturing partnerships.
